Where is your money going?

We're making it a little easier to see if your transactions in NGP match what's in your bank account. When you use the Reconciliation Report, you'll see all your contributions and adjustments in one place, including updated settlement information from integrated payment methods and vendors like Paragon, Apple Pay, PayPal, Venmo, and Stripe.

Are you missing out on major gifts?

Make sure you are always taking the best actions to cultivate your next major gift. With the new Major Giving Portfolio, you can manage your action plans, portfolio, and prospects all in one place. We'll monitor your donors to see who is ready for the next step, and we'll update your prospect list every night to make sure no one gets overlooked.

Keeping an eye on your sustainer giving

Stay on top of all the changes happening in your sustainer program with the new Recurring Commitment Change report. This report will help you see any upgrades or downgrades in giving and track when and how the change was made so you can respond quickly to any new trends you are seeing in donor commitment levels.

Never forget an important

Product Updates

Tracking your in-kind disbursement limits

Calculate limits on Link To Contact

When setting up disbursement limits for your election cycles, you can now make sure that the limit is linked to the credited contact rather than the vendor by using the new checkbox. This helps you catch these disbursements in your over-limits reporting and makes it easier to accurately file your disclosure reports.
