

How to: Set Up Stripe Connect in EveryAction

With a Stripe payment processing account, you will be able to set up a gateway you can use with your Online Actions forms to process your online contributions or ticketed event purchases. **Stripe is typically the payment processor we use to support international payments and contributions.**

[Read more about accepting donations from international supporters](#)

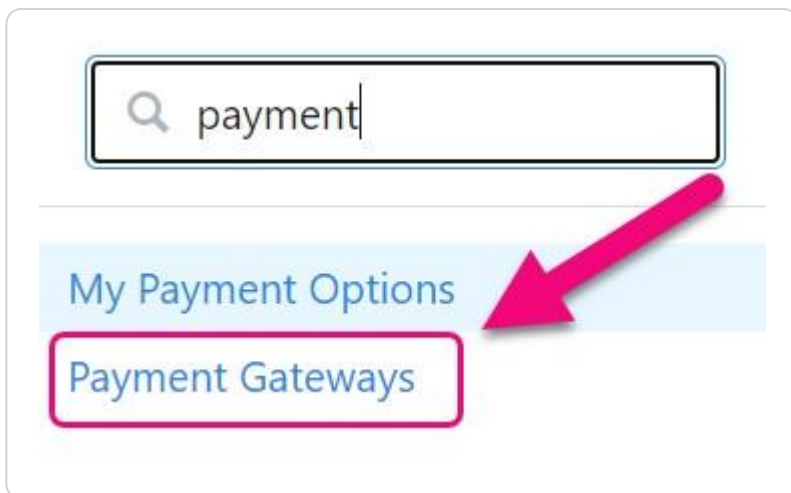

Before you begin

Before connecting, you **must have an active Stripe account**. If you do not yet have an account, you will first need to contact your Account Executive or Support, who can help you set up your account. You can then use Stripe Connect to set up your own Stripe gateway account in EveryAction within minutes.

You'll also need a designation set up within your committee prior to setting up Stripe Connect.

Connecting your Stripe account

Once a Stripe account has been created, **search in the Sidebar for the Payment Gateways** option to get started.

On the next page, **select the Connect option to begin the Stripe Connect setup**. If you do not see this option, please contact Support.

Connect

No Stripe Accounts

You can connect a Stripe account using the button above.

Accepted payment types for Stripe gateways

Log in to your Stripe account. Once logged in, you will be asked to **give EveryAction access to your Stripe token**. If you have multiple Stripe accounts under the same email address, you will need to choose which account you want to connect.

Logged in as stripe@ngpvan.com. [Switch user?](#)

EveryAction would like to connect to your Stripe account.

This application will have access to your data, and can create payments and customers on your behalf.

← Cancel and go back

✓ Connect my Stripe account

You'll be taken back to EveryAction (zz.me.dev.local) right away.

By connecting your Stripe account, you agree to our [Services Agreement](#) and [Connected Account Agreement](#).

Once you **Connect my Stripe account**, you'll return to the Payment Gateways page.

Select the gateway name and the Designation you want to connect to Stripe. The gateway name cannot exceed 50 characters in length. If there is only one designation within your EveryAction committee, it will be selected by default.

Connect Stripe Account

stripe

To accept payments with your Stripe account, please create a name for the payment gateway and select which designation you would like linked to this account.

People for Good Stripe Main

Active payment types

VISA Mastercard American Express Discover

Designation name	People for Good Main	More info
CVV	Disabled	
Email address	ddogood@peopleforgood.org	
AVS Level	Medium	
Allow non-USD currencies	Disabled	

Choosing the **More Information** option will let you know if there are any Online Actions forms connected to the designation or if any recurring commitments are linked to the Stripe Connect account. You'll also see instructions for changing or disconnecting the gateway, if necessary.

More Information

To make changes to the CVV, AVS, or non-USD Currencies settings, contact [Client Services](#).

If you wish to disable your account, please contact [Client Services](#) for assistance. Note that there are published Online Actions forms connected to this gateway.

OK, got it
